

We measure all mental health interventions to ensure success. Your progress will be tracked over time to determine the effectiveness of the treatment plan and goals.

You will receive an evaluation measure to track your response to treatment. Your response to treatment will be provided as a quantitative statistic as well as a visual graph.

Who We Are

Dr. Jaime A.B. Wilson is a prescribing medical psychologist, board-certified neuropsychologist, and rehabilitation psychologist in full-time private practice inside and outside Washington State. He holds privileges at several area hospitals and has worked extensively with physicians, other healthcare providers, and forensic experts, providing neuropsychological evaluations across the U.S. The field of neuropsychology is dedicated to learning about and diagnosing conditions related to the brain and nervous system. Dr. Wilson brings a wealth of experience in working with individuals from a variety of backgrounds, including the D/deaf, hard of hearing, DeafBlind, and blind populations.

Steven M Brown, LMHC, NCC, CDPT - a native ASL user - is a graduate from Adler University - Chicago. He has been providing counseling and advocate work for various individuals and community groups from diverse backgrounds for over 10 years. He has been serving as a voluntary board member holding leadership positions for several organizations for many years.

Marcus John, M.Ed., LPC, CRC, NCC is a graduate from the University of Idaho. He began working in supported living and applied counseling theories over 10 years ago and has since been a strong advocate of improving deaf and hard of hearing supports. He has been serving on a number of organizations for several years in board positions.
